Languages: JavaScript, TypeScript, HTML5, CSS3, PHP
Libraries & Frameworks: React, React Native, Bootstrap, Swift, Node, Angular, VueJS, NestJS, NextJS, Jest, Vitest, PHP Unit, jQuery
Tools: Git + Github, Postman, Figma, Vite, Adobe Suite, Microsoft 365, Docker, Jira, Azure DevOps, Azure Portal,

WORK EXPERIENCE

CMap Software Manchester, Salford
Senior Frontend Software Developer - CMap Mail March 2024 - October 2025

- Architected and maintained a monorepo containing four interconnected applications
- Developed an Outlook Add-in enabling users to file emails directly into SharePoint sites via Microsoft Graph
- Built a discovery web app using Typescript and React.js for email retrieval and management
- Created an Admin portal for project migration and user management across SharePoint sites
- Engineered an install web app for automated SharePoint hub site provisioning, including search schemas, site designs and granular permission management
- Designed intuitive UI/UX workflows in Figma across all four applications
- Established CI/CD pipelines and TDD practices across the team reducing deployment time by over 35% and regressions by almost 60%

17 Oranges Remote
Frontend Mobile Developer - Kwando February 2023 - March 2024

- Designed and implemented UI/UX workflows for iOS and Android devices
- Participated in workshop sessions with customers to define product requirements
- Utilised Expo, React Native and Typescript to build, deploy and maintain app versioning
- Established Git workflows and deployment processes
- Managed application state and data caching for optimization purposes
- Created API service modules for REST endpoint consumption
- Designed and documented API endpoint requirements in collaboration with backend developers

The Access Group Remote
Full Stack Web & Mobile Developer - Orderbee September 2022 - February 2023

- Developed features for Orderbee's web application using VueJS and Typescript, working with other Frontend developers
- Built mobile functionality for Orderbee using React Native within a separate mobile development team
- Participated in daily standups, sprint planning, and retrospectives following Scrum methodology with both teams
- Coordinated development workflows through Azure DevOps
- Prioritized triage issues to maintain a smoother user experience and development cycle
- Delivered features in iterative sprints while managing parallel workstreams

The Drawing Room Creative Remote
Mobile Developer - The Original Factory Shop app December 2021 - September 2022

- Architected and implemented a loyalty badge system with reward and referral mechanics
- Created a interactive daily scratchboard game to drive user engagment
- Integrated a push notification system using Firebase for real-time user updates
- Collaborated with backend team to implemented our microservice architecture
- Mentored junior developers and conducted code reviews to maintain code standards
- Developed, deployed and maintained the TOFS application on both iOS and Android using React Native
- Worked under tight deadlines in a high-pressure agency environment
- Supported 150,000+ users

Langley Foxall

Frontend Web & Developer - CicloZone

Stafford, Dyson Way

April 2021 - December 2021

- Developed Laravel based CMS solutions for a diverse range of client including osteopathy clinics and door manufacturing sales company
- Contributed to React Native app development with Bluetooth connectivity for exercise bikes
- Designed and implemented RESTful APIs using PHP Laravel
- Worked on a Laravel-based video content management system for bike workout videos
- Practiced pair programming to ensure code quality and knowledge sharing

eDynamix

Junior Web Developer & Designer - Web Master

Derbyshire, Pride Park

October 2019 - April 2021

- Developed Web Master, a CRM platform for car dealership website creation and management
- Designed and implemented UI/UX workflows for the Web Master CRM interface using Laravel
- Built a custom WordPress plugin as a early prototype of Web Master using jQuery
- Maintained and updated existing dealership websites through the CRM platform

EDUCATION

University of Derby - Grade 2-1

Computer Games Programming BSc. Hons

September 2016 - September 2019
