Worked in multiple team projects with assigned roles such as senior developer, head programmer/artist and team leader. I consider myself sociable, easy to work with and a team player and always ready to take on new and exciting challenges.

CAREER HISTORY

CMAP: ATVERO
Senior Front-End Software Developer
March 2024 – Present

My role at Atvero is to lead, design and deploy the latest version of their Outlook Email Filing add-in and implement it into their existing SharePoint file management system created for architects and engineers.

- Senior Management
- CI/CD
- React + TypeScript
- TDD
- UI/UX (Figma)

17 ORANGES
Front End Lead Mobile Developer
Feb 2023 – March 2024

At 17 Oranges I was responsible for making a social event managing app called Kwando. My role was to create an iOS app, produce designs and build API's. I worked with 3 other collages whilst overseeing all elements of development.

- App Deployment
- Git Management
- React Native
- iOS & Android
- TypeScript
- NestJS

THE ACCESS GROUP
Full Stack Web & Mobile Developer
Sep 2022 – Feb 2023

Worked on a web and mobile product known as Orderbee. We followed an agile scrum methodology in an agency environment. Handled and managed customer requests to ensure a smooth developmental cycle for the other developers on the team.

- VueJS
- TDD
- React Native
- Azure DevOps
- TypeScript
- Scrum Methodology

THE DRAWING ROOM CREATIVE
Front End Lead Mobile Developer
Dec 2021 – Sep 2022

Worked as the Front-End Lead on a React Native application within a fast paced, high pressured, agency environment. Mentored multiple team members where required. I followed CI/CD development methodology.

- Micro Services
- Git Management
- React Native
- iOS & Android
- TypeScript
- App Deployment

LANGLEY FOXALL
Software, App & Full Stack Web Developer
Apr 2021 – Dec 2021

Extensive hands-on experience developing and releasing an iOS and Android App which integrated Bluetooth connectivity for pairing to exercise bikes. App developed using ReactJS and Laravel. Additionally, I developed an Admin and User management portal web tool for a client specialising in Osteopathy.

- React & React Native
- Pair Programming
- PHP Laravel
- RESTful API's
- JS Unit Testing
- AWS

EDYNAMIX
